

The Bullet Trap Practical Shooting Adventure
Tap Rack and Roll
Course of Fire for November 10, 2025

Scoring- Comstock

Round Count 12

In addition to a required magazine change between the 3rd & 4th targets, the shooter will be confronted with two Type 1 malfunctions. While you are "in the hole", a range officer will reload your magazines, randomly inserting a dummy round somewhere in the first six positions of each one. This will cause the failure somewhere between T1 & T3, and T4 & T6. You will have to deal with the malfunction and continue the COF.

Stages 1

Start on the left. At the buzzer, engage each target from left to right with 2 rounds.

Stage 2

Start on the right. At the buzzer, engage each target from right to left with 2 rounds.

Stage 3

Start in the middle. At the buzzer, engage each target with 2 rounds. Sequence is shooter's choice.
